PROFILE

Specializing in front end development with 2.5 years of experience delivering scalable web solutions globally via platforms like Fiverr and Upwork. Proficient in front-end technologies like HTML, CSS, Bootstrap, Tailwind CSS, WordPress, and Webflow. Skilled in building dynamic user interfaces and robust website designs tailored to client needs.

EDUCATION

Dhaka College <i>Bachelor of Science in Statistics - CGPA - 3.31</i>	2020 – 2024
BAF Shaheen College, Dhaka <i>Higher Secondary Certificate - GPA - 5.00</i>	2017 – 2019
Shaheed Ramiz Uddin Cant. School & College <i>Secondary School Certificate - GPA - 5.00</i>	2015 – 2017

PROJECTS

Framer | (Tailwindcss)

- This project focuses on replicating Framer's modern, sleek design language — including its smooth layouts, typography, and responsive structure. The goal was to sharpen front-end skills by reverse-engineering a professional-grade SaaS landing page and translating it into clean, maintainable code without any frameworks or page builders.
- [Live site](#)

Webflow | (Tailwindcss)

- A clean and sophisticated web interface developed with Tailwind CSS, emphasizing clarity, consistency, and a premium user experience.
- [Live site](#)

Portfolio | (Wordpress)

- Designing and building websites that feel as good as they look. I focus on creating clean, intuitive interfaces and bringing them to life with smooth, responsive development that enhances the overall user experience.
