Summary

I'm a WordPress Developer with **5+ years of experience** building fast, responsive, and modern websites. I've **completed over 500 projects** for agencies and clients worldwide, including business sites, e-commerce stores, and fully custom designs.

I specialize in **Elementor, WooCommerce, and custom website development**, with strong front-end skills in **HTML, CSS, JavaScript, and Bootstrap**. I focus on clean design, solid performance, SEO, and security. My clients value my clear communication, reliability, and commitment to delivering high-quality work on time.

Professional Experience

Elite IT Solution | WordPress Developer

Mar 2024 – Present | Remote

Developed more than 90+ modern websites for international clients while ensuring consistent design quality, performance, and technical stability.

Key responsibilities:

- Designed and developed custom WordPress websites using Elementor Pro.
- Built and configured WooCommerce stores, including product pages, checkout flows, and payment gateways.
- Performed website maintenance, version updates, and long-term support tasks.
- Executed speed optimization: caching setup, asset minification, image optimization.
- Improved security with plugins and best practices.
- Fixed bugs, layout issues, plugin conflicts, and mobile responsiveness problems.
- Created landing pages for marketing, sales, and lead-generation campaigns.
- Managed website migrations between servers and hosting environments.
- Delivered SEO-friendly, responsive, and fully optimized websites.

Elementor Proficiency:

Page Builder Features:

- Creating custom layouts and landing pages
- Utilizing widgets and templates
- Advanced design options (e.g., flexbox, grids)
- Responsive design for mobile optimization
- Forms creation and management
- Popups and lightboxes
- WooCommerce integration
- Dynamic content templates
- I'm also familiar with Gutenberg, GenerateBlocks, GeneratePress

Webflow Expertise:

- Ability to design and develop websites visually using Webflow's drag-and-drop interface.
- Experience in creating responsive websites that adapt seamlessly to different screen sizes
- Webflow's CMS to manage website content, building dynamic websites with editable sections.
- Implemented custom interactions or animations using Webflow's features, ability to create engaging user experiences.
- Generates clean code or exported the code for further customization.

Coding Skills:

- HTML
- CSS
- Bootstrap
- JavaScript
- PHP (Basic)

Additional Skills:

- SEO
- Server maintain
- Website maintain
- Clearly understanding client needs
- Proactively identifying and resolving issues
- Monitor and analyze user behavior

OneLittleWeb | WordPress Developer

Aug 2023 - Apr 2024

Key responsibilities:

- Revamped the main company website, improving UI, performance, and functionality.
- Designed and developed multiple landing pages for international marketing campaigns.
- Built two full corporate websites from scratch: visualresearch.com and authoritylinks.com.
- Used Webflow for advanced animations and responsive layouts.
- Prevented 2,000+ spam form submissions with Akismet integration.
- Strengthened security using Wordfence and optimization techniques.
- Automated case study publishing using Advanced Custom Fields (ACF).
- Analyzed user behavior with LuckyOrange to improve user experience.

Work Form Home | Freelance Web developer

2018 - 2023

Key responsibilities:

- Designed and developed 350+ websites for businesses, agencies, and individuals.
- Converted PSD, XD, and Figma designs into pixel-perfect HTML/CSS/JS templates.
- Customized WordPress themes including Astra, Enfold, Avada, Divi.
- Worked with page builders: WPBakery, Visual Composer, Elementor.
- Developed full WooCommerce stores with inventory, variations, checkout, and shipping setup.
- Performed speed optimization to improve Core Web Vitals.
- Integrated custom features and plugins based on client needs.
- Delivered clean, modern, fully responsive UI/UX implementations.

Achievements

Codeinwp - 15 Minute WordPress Challenge

I was selected in top 10 participants for creating a website in 15 minute. After public votes I was 5th position in this competition.
