CAREER OBJECTIVE

Detail-oriented Full Stack Web Developer with hands-on experience designing and building scalable, production-ready web applications using React.js, Next.js, and the MERN stack. Skilled in REST API development, secure authentication, role-based access control (RBAC), Stripe payment integration, and clean, responsive UI/UX design. Proven ability to independently plan, develop, and deploy full-stack projects from concept to live deployment while maintaining a strong focus on code quality, performance, and user experience. Seeking a Full Stack Developer role to contribute technical expertise, problem-solving ability, and a continuous-learning mindset toward building impactful digital products.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, Tailwind CSS, HeroUI, DaisyUI

Backend & Database: Node.js, Express.js, MongoDB, REST APIs, Modular Pattern

Authentication & Payments: Better Auth, JWT, Google OAuth, Role-Based Access Control (RBAC), Stripe Integration

Tools & Platforms: Git & GitHub, Vercel, ImgBB, Postman, VS Code, Render, Netlify, Claudeflare

PROJECTS

LegalEase – Online Lawyer Hiring Platform

[Live Link](#) | [GitHub Client](#) | [GitHub Server](#)

Technologies: React.js, Tailwind CSS, DaisyUI, Node.js, Express.js, MongoDB, Google OAuth, Stripe Payment, ImgBB, HeroUI, REST API

- Engineered a full-stack legal marketplace connecting clients, lawyers, and administrators through a strict role-based access control (RBAC) system with distinct, permission-aware dashboards.
- Built a secure hiring and payment workflow in which the backend validates authentication, role, and payment status before confirming a hiring record, preventing unauthorized or fraudulent bookings.
- Implemented a verified review and rating system that checks session authentication, client role, and a completed engagement before allowing feedback submission, improving review authenticity.
- Developed advanced lawyer discovery with multi-criteria search/filtering and a fully responsive light and dark themed UI.

StudyNook – Library Study Room Booking Platform

[Live Link](#) | [GitHub Client](#) | [GitHub Server](#)

Technologies: Next.js (React 19), React.js, Tailwind CSS, HeroUI, Node.js, Express.js, MongoDB, Better Auth, JWT

- Architected a full-stack study room booking platform enabling students to discover, reserve, and manage study spaces with real-time room availability.
- Implemented secure authentication with Better Auth and JWT, including Google sign-in, email and password login, and protected routes with persistent sessions.
- Built a complete room management and booking system covering room listings, creation, updates, deletion, double-booking prevention, and a personal bookings dashboard.
- Added search and filter functionality by room name, description, floor, and amenities, along with a fully responsive UI supporting light and dark mode.

Wanderlust – Travel and Tour Booking Platform

[Live Link](#) | [GitHub Client](#) | [GitHub Server](#)

Technologies: React.js, Next.js, Tailwind CSS, DaisyUI, Node.js, Express.js, MongoDB, Stripe, Framer Motion

- Built a full-stack travel booking application enabling users to explore destinations, browse tour packages, and view detailed itinerary and destination information.
- Integrated the Stripe payment gateway to handle secure tour reservation payments alongside a user review and rating system.
- Developed an intuitive booking flow backed by secure user authentication, focused on fast navigation and optimized performance.
- Delivered a modern, fully responsive interface with smooth Framer Motion animations across desktop and mobile devices.

Hireloop – Online Job Finder Platform

[Live Link](#) | [GitHub Client](#) | [GitHub Server](#)

Technologies: React.js, Next.js, Tailwind CSS, DaisyUI, HeroUI, Node.js, Express.js, MongoDB, Better Auth, Stripe, Axios

- Developed a comprehensive recruitment platform with dual, role-based portals and personalized dashboards for Job Seekers and Employers.
- Implemented real-time job application tracking, applicant filtering, and status management with instant notifications for both roles.
- Built advanced job search with filtering/sorting, saved jobs, and secure Stripe integration for premium job-posting services.
- Delivered a fast, responsive experience across desktop, tablet, and mobile using the Next.js App Router.

EDUCATION

Bachelor of Business Administration (BBA) — Ongoing, 6th Semester

International Islamic University, Chittagong (IIUC)

Chattogram, Bangladesh
